

| DME concepts | Corresponding MedDRA PTs |
|--|---|
| Acute pancreatitis | Pancreatitis, Pancreatitis acute, Pancreatitis haemorrhagic, Pancreatitis necrotising, Pancreatic necrosis, Oedematous pancreatitis, Ischaemic pancreatitis, Autoimmune pancreatitis |
| Acute respiratory failure | Acute respiratory failure, Respiratory failure, Acute respiratory distress syndrome, Cardiopulmonary failure |
| Agranulocytosis | Agranulocytosis, Febrile neutropenia, Pure white cell aplasia, Granulocytopenia, Autoimmune neutropenia, Neutropenic sepsis, Neutropenic infection, Neutropenic colitis |
| Anaphylaxis and anaphylactoid reactions | Anaphylactic reaction, Anaphylactic shock, Anaphylactoid reaction, Anaphylactoid shock, Angioedema |
| Aplastic anemia | Aplastic anemia, Bone marrow failure, Aplasia pure red cell, Pancytopenia, Febrile bone marrow aplasia |
| Blindness | Blindness, Blindness transient, Blindness unilateral, Sudden visual loss, Optic ischaemic neuropathy, Optic nerve infarction, Toxic optic neuropathy |
| Deafness | Deafness, Deafness neurosensory, Deafness permanent, Deafness transitory, Deafness bilateral, Deafness unilateral, Sudden hearing loss, Conductive deafness, Mixed deafness |
| Disseminated intravascular coagulation | Disseminated intravascular coagulation |
| Hemolytic anemia | Haemolytic anaemia, Coombs positive haemolytic anaemia, Coombs negative haemolytic anaemia, Cold type haemolytic anaemia, Warm type haemolytic anaemia, Anaemia haemolytic autoimmune |
| Haemolysis | Haemolysis, Intravascular haemolysis, Haemoglobinaemia, Haemoglobinuria, Haptoglobin decreased |
| Liver failure | Hepatic failure, Hepatic encephalopathy, Acute hepatic failure, Subacute hepatic failure, Asterixis, Coma hepatic, Reye's syndrome |
| Liver necrosis | Hepatic necrosis, Hepatitis fulminant, Autoimmune hepatitis, Hepatic infarction |
| Liver transplant | Liver transplant |
| Pancytopenia | Pancytopenia, Autoimmune pancytopenia |
| Pulmonary fibrosis | Pulmonary fibrosis, Alveolitis fibrosing, Idiopathic pulmonary fibrosis, Interstitial lung disease |
| Pulmonary hypertension | Pulmonary hypertension, Cor pulmonale, Pulmonary arterial hypertension |

| DME concepts | Corresponding MedDRA PTs |
|---|--|
| Renal failure | Renal failure acute, Renal failure, Azotaemia |
| Rhabdomyolysis | Rhabdomyolysis |
| Seizure | Convulsion, Epilepsy, Grand mal convulsion, Status epilepticus |
| Stevens-Johnson syndrome | Stevens-Johnson syndrome, Erythema multiforme |
| Sudden death | Sudden death, Sudden cardiac death |
| Torsade de Pointes | Torsade de pointes |
| Toxic epidermal necrolysis | Toxic epidermal necrolysis, Dermatitis exfoliative, Dermatitis exfoliative generalised, Drug rash with eosinophilia and systemic symptoms |
| TTP | Thrombotic thrombocytopenic purpura, Idiopathic thrombocytopenic purpura, Autoimmune thrombocytopenia |
| Ventricular fibrillation | Ventricular fibrillation, Ventricular flutter |
| Suicide | Completed suicide, Suicide attempt, Homicide, Suicidal ideation, Suicidal behaviour |
| Colitis ischaemic | Colitis ischaemic, Intestinal infarction, Colon gangrene, Gastrointestinal mucosal necrosis, Gastrointestinal necrosis, Intestinal gangrene, Necrotising colitis, Intestinal perforation |
| PML - Progressive multifocal leukoencephalopathy | Progressive multifocal leukoencephalopathy |
| Product infectious disease transmission | Transmission of an infectious agent via a medicinal product, Product contamination microbial |
